rebellion
emperor
centurion

The Romans built elaborately designed Roman baths where people would go to relax and socialise. Some of these impressive buildings still remain today.

The Romans were famous for building long, straight roads to transport **legions**, supplies, trading goods and messages from the **emperor**. You can still see some Roman roads today, 2000 years after they were built.

Early in Roman times, the Roman people believed in many different gods and goddesses whom they believed controlled different aspects of their lives, such as time, love and the seas.
